## INDIGENOUS LANGUAGES DEGREES/PROGRAMMES OFFERED

3-year BA 4-year BA

## INTRODUCTION

Indigenous languages are the foundation of Indigenous knowledges and communities. The Indigenous Languages Thematic Major provides students with an interdisciplinary education in Indigenous Languages that focuses on revitalization, planning, and communication. Through core courses in Indigenous Studies and Linguistics, students grow as speakers of an Indigenous language and as capable proponents of Indigenous language revitalization. Elective courses from fields such as Anthropology, Conflict Resolution Studies, Education, Urban and Inner-City Studies, and Writing, Rhetoric and Communications expose students to diverse perspectives on Indigenous languages. Students have opportunities for experiential learning to complement teaching and research. Graduates of the program will join a growing community of people who are dedicated to, and have the skills to support, ongoing learning, speaking, researching, and teaching Indigenous languages, contributing to the revitalization of Indigenous languages.
