2. Verify that the student has filled in correctly their student number, date, surname, given names, degree/faculty, level/length, major, (if applicable), and Academic Calendar Year. The correct Academic Calendar Year is very important otherwise the student may follow the wrong major or degree requirements. (*The [Academic Calendar](#) is published yearly and contains the degree and major requirements applicable to that specific year. Major and degree requirements can vary from year to year. Most students follow the requirements from the Academic Calendar published for the year of their admission/start of University. The Academic-Calendar-Year line refers to which year's requirements a student is following, not the date you sign the form. This field is mandatory and important for the correct requirements to show on a student's "My Progress" section in WebAdvisor.*) Typically, we would not see any major declarations for an upcoming academic year (2020-2021) until the July prior to the September start.
