

DISTINGUISHED FACULTY TRAVEL AWARD

Value

\$2,000

Application Deadline

March 15, September 15

Competition Results

April 15, October 15

Purpose

To support travel costs for a researcher with a well-established research track record who has been invited to present a paper or keynote address at a prestigious, international conference.

General Information

Up to four Distinguished Faculty Travel Awards will be offered in one fiscal year. The DFTA may be applied against conference costs such as transportation, registration, accommodation, and subsistence.

Recipients of DFTAs will be expected to have a significant role in the conference beyond the presentation of a paper.

The conference will be of the highest quality and prestige.

Applicants must be invited to the conference, according to the definition of “invited” as provided by The University of Winnipeg Research Committee (page 4 of this manual).

MAJOR

MAJOR RESEARCH GRANT

Value

Up to \$7,500

Application Deadline

January 15, June 15

Competition Results

February 15, July 15

Purpose

To support the highest quality research through the funding of fully-developed research proposals.

General Information

Major Research Grants support the direct costs of research, such as:

- Research Assistance: wage rates and benefit costs must be verified with Human Resources.
- Travel and Accommodation: support for travel and accommodation related to research.
- Materials and supplies.
- Research equipment.

Applicants may only receive one Major Research Grant in a fiscal year.

A Principal Applicant cannot hold more than \$15,000 in Major Research Grant funding within any four-year period.

Ineligible expenses

- Conference travel.
- Teaching-related equipment and supply purchases.

PARTNERSHIP DEVELOPMENT GRANT

Value

Up to \$1,500

Application Deadline

January 15, June 15,
September 15

Competition Results

February 15, July 15,
October 15

Purpose

To support the costs associated with the initial stage of research collaboration in order to foster new relationships between University researchers, colleges, and other sectors including government, industry, not-for-profit organizations, and community organizations.

These grants provide a mechanism through which researchers may coordinate their collaborative research projects in order to get such projects ready for full external funding proposals.

General Information

Partnership Development Grants will cover such costs as communication, travel, and research assistance.

There can be no existing or past relationship with the partner (i.e., research collaborations, consulting contracts).

Applicants may only receive one Partnership Development Grant per fiscal year. The initial stages of implementation of the development plan may be considered for funding under the University's Major Research Grants Program, but the research team will be expected to pursue external funding.
